
MOREAU KUSUNOKI IS LOOKING FOR AN INTERN TO WORK ON A JAPANESE PROJECT

DESCRIPTION

MOREAU KUSUNOKI is a French-Japanese architecture and design agency based in Paris. The office was established in 2011 and has since then carved itself a particular and recognisable place in the European and international architectural stages. Working in varied programmes and scales, yet exhibiting a particular interest in projects of cultural character, the office made a name for itself through their winning entry for the Guggenheim Helsinki in Finland in 2015. This has been followed by several built and on-going major projects: Sciences Po's new university campus in the centre of Paris, the National Lighthouse Museum in Brest, and the Powerhouse Parramatta Museum in Sydney, Australia.

MISSIONS

- Proactively and reactively engaging in the research and design processes for developing an urban masterplan in Tokyo.
- Producing graphics, architecture drawings, 3D, and physical models for efficient communication within the team, collaboration partners, and clients.

PROFILE

MOREAU KUSUNOKI is looking for a self-driven and versatile intern who can add value to the development of a urban masterplan in Tokyo.

- Available for a period of 3 to 6 months (ideally from this March)
- University agreement (*convention de stage*) is required to do an internship
- Fluency in Japanese and English required; French is an asset
- Excellent knowledge of AutoCAD, Rhino, InDesign, Illustrator and Photoshop
- Good graphic and model-making skills
- Ability for independent work and work in a team
- Familiarity with the Japanese culture and the urban contexts of Tokyo
